

ADVANTAGES OF THE POLYPROPYLENE

PONSA[®]

Quality Textiles since 1828

POLYPROPYLENE
100%

*Does not absorb liquids.
The retained humidity
is insignificant.*

*POLISAN[®]. Permanent treatment
anti-microbial and anti-mildew.*

POLIFLAME[®]. Flame retardant.

*Less static electricity than PES
and PE (very important in applica-
tions where there is friction with
other materials).*

Recyclable 100 x 100.

*High resistant to chemicals
products, specially alkalis.*

*High resistance to abrasion
(longer life for products).*

Light density: Light product.

UV Treatment to protect sunlight.

Thermal insulation.

*Washing up to 95°.
Does not absorb dirt
and does not fade.*
